#### Forsyth

FORSYTH, the county seat of Taney county, is beautifully and centrally located at the junction of the sparkling waters of the Swan with the swift and crystal current of beautiful White river. The site is ideal, and the little, well built and well painted city, fastened at the meeting of the waters like a gem at the throat of while the wooded ridges flank in arroad of beauty, while the wooded ridges flank in every dibeauty, while the wooded ringes hank in every direction the central figure, all form a picture which
lingers long in the memory of the visitor—and he
usually comes back to refresh the picture.
The great Presbyterian church is now building
the great presbyterian church is now building

here its college for southwestern Missouri and northwestern Arkansas, making of Forsyth a prominent college town. The fact that Forsyth nated a forty-acre site and over five thousand donated a love, and the establishment of this school dollars toward, the establishment of this school sufficiently indicates the attitude of our people toward the higher education. The fact that the sommittee representing the church has acquired an additional 120 acres of and affords some clue an additional 120 acres of and affords some clue to the magnitude of the plans of the church. It is purposed to spend \$50,000 on this school plant. School will open January 1, 1907.

We have a good graded school, a neat stone chapel open to all churches, a well supported union Sunday school, daily mails from all directions in short, more advantages than many a more complete and weathy community.

ulous and weathy community. Well equipped mail and hack lines, with head-quarters here, give daily connection with the Prisco, at Chadwick, and the White River line transacted business in the county seat

of the Missouri Pacific, at Branson. Most lines of business are represented, includ-ing general merchandise, drugs, millinery, hotels, livery, lumber, meat market, undertaking, printing, painting, milling, blacksmithing, carpentry, eteeters. We have an able and sufficiently numerous corps of lawyers, a good physician, and

real estate men enough.

We need a resident dentist, a furniture store, a bardware store, a wood-working factory to utilize our native woods, and various other enterprises can find or make good openings.
